## PROFESSIONAL SUMMARY

Full-stack web developer and 6th-semester B.S. Computer Science student at FAST-NUCES Islamabad, seeking a full-stack development internship. Specializes in end-to-end web apps with TypeScript, React, Next.js, Node.js, Express, PostgreSQL, and MongoDB; hands-on with REST APIs, OAuth 2.0, serverless backends, and third-party integrations (Google Maps, Google Classroom). Four deployed projects spanning Next.js App Router, Supabase, MongoDB Atlas, Chrome Extension MV3, and multi-agent LLM orchestration.

## EDUCATION

**B.S. Computer Science, FAST-NUCES, Islamabad | 2023 – 2027 (6th semester)**

## TECHNICAL SKILLS

**Languages:** TypeScript, JavaScript, Python, C++, SQL

**Frontend:** React, Next.js (App Router), Tailwind CSS, Framer Motion

**Backend & APIs:** Node.js, Express, NextAuth, REST APIs, OAuth 2.0, Vercel Serverless

**Databases:** PostgreSQL (Supabase), MongoDB (Atlas)

**Tools & Platforms:** Git, GitHub Actions (CI/CD), Vercel, Linux, Chrome Extension (Manifest V3)

**Soft Skills:** Team collaboration, technical communication, self-directed learning

## PROJECTS

**FAST Isb Utilities (Exam-Table) | Next.js 14, TypeScript, Supabase (PostgreSQL), Tailwind CSS, Vercel Cron**

2026 | [fast-nuces.vercel.app](https://fast-nuces.vercel.app) | [github.com/ammarasad2005/Exam-Table](https://github.com/ammarasad2005/Exam-Table)

- Unified campus companion consolidating 12+ student tools — timetable viewer, exam schedule finder, free-rooms finder, faculty directory, events calendar, lost & found — into one deployed web app.
- Automated data freshness via Vercel Cron; faculty/event/room data persisted in Supabase (PostgreSQL) and consumed by typed Next.js server components.

**WayFinder | Next.js 16, React 19, TypeScript, NextAuth, Google Maps API**

2026 | [wayfinder-app-gray.vercel.app](https://wayfinder-app-gray.vercel.app) | [github.com/ammarasad2005/WayFinder](https://github.com/ammarasad2005/WayFinder)

- Location-search companion that fixes weak in-app address indexing in ride-hailing apps; users verify destinations via Google Maps intelligence, then hand off directly to Yango for the ride.
- Eliminated manual pin-dropping inside Yango with verified destination info, NextAuth sessions, and a Next.js App Router UI tuned for fast mobile lookup.

**GCR Fetch | Chrome Extension (Manifest V3), OAuth 2.0, Google Classroom API, Vercel Serverless**

2026 | [github.com/ammarasad2005/gcr-resources-fetch](https://github.com/ammarasad2005/gcr-resources-fetch)

- Manifest V3 Chrome extension that bulk-downloads every Google Classroom resource as one organized ZIP, replacing 20–25 minutes of manual clicking per course via hybrid DOM + REST API detection.
- Secured OAuth 2.0 token exchange through a serverless Vercel backend; client secret never touches the extension, API calls restricted to HTTPS-only Google-domain allowlist, filenames sanitized.

**DramaGhar | Next.js 15, React 19, MongoDB Atlas, Supabase, TypeScript, Tailwind CSS, Framer Motion**

2026 | [drama-ghar.vercel.app](https://drama-ghar.vercel.app) | [github.com/ammarasad2005/Drama-Ghar](https://github.com/ammarasad2005/Drama-Ghar) (co-built with Hanzlah Ch.)

- Full-stack Pakistani drama tracking and streaming platform cataloguing 200+ dramas with embedded streaming, watch history, and per-episode analytics.
- Implemented role-based access control (RBAC), password encryption, session management, and a live Electronic Program Guide (EPG) grid backed by Supabase.

## HACKATHONS & EVENTS

**Google Antigravity Community Hackathon — AISeekho 2026 | Team of 5**

Built **Hamara-Rozgar**, a 5-agent cooperative AI orchestrator for Pakistan's informal economy with multilingual parsing, OSM Nominatim geocoding, Supabase ledger, and Groq api.

**National AI Hackathon — atomcamp @ FAST-NUCES Islamabad | Jan 2025 | Solo**

Participated in a two-day national AI hackathon focused on agentic AI solutions.

**FAST Problem Solving Competition (FPSC) — ACM NUCES | Winter 2025 | Solo**

Competed in FAST-NUCES's inter-semester competitive programming challenge.

## VOLUNTEER EXPERIENCE

**Volunteer Literacy Tutor, Karwaan-e-Mudabbir | Sep 2024 – Dec 2024**

16-hour community service engagement teaching basic literacy and mathematics to underprivileged students via Karwaan-e-Mudabbir's non-formal education program.
